The Difference is Clear

For nearly two decades, children and families from Chapel Hill and the surrounding communities have chosen Clifton & Mauney Pediatric Dentistry. We've built an outstanding reputation and earned the respect of local pediatricians and the professional dental community for delivering pediatric excellence to infants, children, adolescents and teens. We're up-to-date on the latest technology and treatment techniques, and we consistently deliver exceptional care and results.

Friendly, Unhurried 5-Star Care

Patients of all ages find us easy to talk to. They enjoy our warm, personalized, unrushed 5-star care and service from our dentists and staff. We are extremely attentive to each child's needs and parent's desires and extremely thorough in our examinations, diagnoses and treatments. Our mission is to eliminate your concerns, solve your child's dental problems and deliver dental health that can last them a lifetime.

Comprehensive Children's Dentistry

When it comes to pediatric dental health, your children could not be in better hands than Clifton & Mauney Pediatric Dentistry. Our care includes today's latest pediatric dental treatments and advanced techniques designed to give your child a happy healthy smile. Our services include children's dentistry, infant dental health and emergency care & treatment.

Children's Dentistry

No parent wants their child to experience unnecessary pain or discomfort. A big part of ensuring your child's current and future dental health is finding a dentist you and your child feel comfortable with and confident in. That's why so many Chapel Hill families choose Clifton & Mauney Pediatric Dentistry for all their children's dental care. They know our goal is a positive, pain-free dental experience for their child, every time.

Infant Dental Health

Babies and infants should see a pediatric dentist beginning with their first birthday, or as soon as their first teeth begin appearing, according to the American Academy of Pediatric Dentistry. One of the best things you can do for your child is help ensure a lifetime of good dental health. That's why your first visit to a trusted pediatric dentist is so important.

Emergency Care & Treatment

When a dental emergency arises, it's comforting to know that there's an experienced pediatric dentist right here in Chapel Hill you can trust to handle virtually any emergency situation, whether it's a broken tooth, a knocked-out tooth or some other dental trauma or pain. Find peace of mind at Clifton & Mauney Pediatric Dentistry.

When Your Child Should See a Dentist

Clinical research proves the importance of starting children early in their lives with good dental hygiene and care. Study reveals that the most common chronic childhood disease in America is tooth decay, which affects half of all first-graders and 80 percent of 17-year-olds. Parental involvement in establishing good oral health habits combined with early treatment can prevent problems with a child's health, well-being, self-image and overall achievement in school and life.
